

Telephone Interview:

Examiner Willie J. Daniel, Jr. and the undersigned discussed the main differences between the instant application and the Koster reference via telephone on June 12, 2007. Applicant distinguished the Koster reference by pointing out that the claims require that the MSC assigns the virtual origination number and Koster discloses that the IRS HLR assigns the MDN, which has been asserted to be a virtual origination number. No agreement was reached and Applicant was advised to file a formal response.
